## EXPERIENCE

---

### NIA Agrocommodity Marketplace

Full Stack Developer | Summer Internship | 3 Months | June 2022 - Sept 2022 | Gurgaon, India

**FRONT-END** Javascript | React

- contributed to a code base used to find and correct inconsistencies between buyer posts and seller quotes.
- migrated the ASP.NET-based website - [wheatbazar](#) to a React.js-based website.
- made the website about 3.5 times faster than its previous stack.

**BACK-END** Java | Spring Boot

- learned Java Spring Boot for backend development and developed REST APIs.
- rebuilt around 40 API call endpoints to make front-end to back-end interactions.
- contributed to decreasing the response time for each API call by up to 2.2 seconds.

## SELECTED PROJECTS

---

### ANI CART react | redux | nodejs | MongoDB | firebase

- live | [source](#)

- An e-commerce store website with functionalities like google authentication and authorization, payment options, roles-based logins, and impressive design.
- Designed with React as a front-end and nodejs as a backend server.
- Used Redux for easy state management across the whole app.

### BOX WORLD GAME react | redux

- live | [source](#)

- A word-building game.
- Designed a web-based word game, I used to play as a kid with pen and paper.
- Implemented in ReactJs in which each player is required to add a letter to the game board and then make a word out of present letters on the board to score a point.
