EXPERIENCE

Full Stack Developer

NIA Agrocommodity Marketplace | Internship | June 2022 - Sept 2022 | Gurgaon, India

FRONT-END Javascript | React
- contributed to a code base used to find and correct inconsistencies between **buyer posts and seller quotes.**
- migrated the ASP.NET-based website - wheatbazar to a React.js-based website.
- made the website about **3.5 times** faster than its previous stack.

BACK-END Java | Spring Boot
- rebuilt around **40 API call** endpoints to make front-end to back-end interactions.
- contributed to decreasing the response time for each API call by up to **2.2 seconds.**
- learned Java Spring Boot for backend development and developed REST-full APIs.

SELECTED PROJECTS

ANI CART react | redux | nodejs | MongoDB | firebase   – live | source
- An e-commerce store website with functionalities like **google authentication and authorization, payment options, roles-based logins, and impressive design.**
- Designed with React as a front-end and nodejs as a backend server.
- Used Redux for easy state management across the whole app.

BOX WORLD GAME react | redux   – live | source
- A word-building game.
- Designed a web-based word game, I used to play as a kid with pen and paper.
- Implemented in ReactJs in which each player is required to add a letter to the game board and then make a word out of present letters on the board to score a point.
