EXPERIENCE

SDE - 1

Sopra Banking Software | Full time | Noida, India   Aug 2023 - Present
Java | Javascript | Angular

- Enhanced a **cloud-based payment engine** that facilitates initiating or receiving payments through various payment types in European regions.
- Implemented new features for the product, including APIs for **non-receipt claims and value date claims**, and contributed to the introduction of **UK Faster Payments**.
- Fixed numerous defects, improving payment flow efficiency.
- Conducted **code reviews** and **mentored junior developers**.
- Improved user experience through various **UI/UX** enhancements and upgrades.
- Collaborated with **cross-functional team**s on feature implementations.
- Developed unit tests for quality assurance.

SELECTED PROJECTS

PURRFECT POMODORO TIMER Chrome Extension   – [live]

- A robust and user-friendly **Pomodoro timer extension** designed to enhance focus and productivity.
- Provides **graphs** to visualize user progress and productivity trends. It includes a Pomodoro **Calendar, export/import** functionality, **auto-start timers,** and more.
- Surpassed **50 weekly active users** within the first 4 months of launch.

HAVE SMALL BYTES Next.js | Graphql | CMS | Typescript   – [live] | [source]

- Designed and developed a beautifully simplistic tri-category-based **personal blog website** with user authentication and authorization with **next-auth, server-side rendering** for most pages, and letting users interact with the posts with **likes/comments/replies**.
- Implemented with **NextJs** for the first time, and learned a ton about new technologies like **next.js, graphql**, and **CMSs**.

ANI CART React.js | Redux | Nodejs | MongoDB | Firebase   – [live] | [source]

- An e-commerce store website with functionalities like **Google authentication and authorization, payment options, roles-based logins, and a unique design.**
